

SPECIFICATION AMENDMENTS

IN THE SPECIFICATION:

1. Please replace the paragraph beginning at line 21, page 29 with the following amended paragraph:

At a seventh interaction event E7, FIG. 14, David is still in his meeting, reviewing a pending commitment summary ~~POS~~ **PCS** displayed on the visual display 16a of his wireless telephone, when he notices that his meeting has run longer than expected. The pending commitment summary PCS indicates that David has a number of pending mediated commitments that are based on his meeting being over by about 14:30 hours. David also notices that the meeting has run longer than the time specified according to his availability status, FIG. 3. Accordingly, David selects the control key associated with the options action OA such that the options menu OM is displayed at an eighth interaction event E8. David then uses the scroll key 186 to highlight the 'Change my availability' options selection and confirms the selection by depressing the control key 16c associated with the accept action AA.
